Company Announcements

Company Structure and Management Moves

Greenland Minerals and Energy Limited (ASX: GGG) (“Greenland Minerals” or “the Company”) is pleased to advise that, in line with its goal to develop the Kvanefjeld multi element deposit, several internal management changes are taking place, along with the establishment of new offices to effectively manage the Company’s 2010 work programs.

Mr Roderick McIllree (Chief Executive Officer) will be based in the United Kingdom to closely manage the Company’s relations with Greenland’s authorities and key stakeholder groups through the remainder of 2010, and to progress several corporate initiatives in association with the Company Chairman Mr Michael Hutchinson.

Mr Shaun Bunn, who has been driving the Kvanefjeld feasibility studies as Project Manager, has been appointed Chief Operating Officer as the Company prepares to initiate definitive feasibility studies in 2011. Dr. John Mair continues as General Manager with an increased focus on *Business Development* (Including Exploration).

In addition to the above management changes the company is also pleased to advise that it has opened an office in Copenhagen to more effectively manage upcoming work programs, many of which utilise European consultancy groups.

Yours faithfully,

Mr. Simon Cato
Executive Director
