Greenland Minerals and Energy appoints new metallurgy manager

Greenland Minerals and Energy (ASX:GGG) appointed Damien Krebs to its senior management team as Metallurgy Manager for the Kvanefjeld project on September 20.

The company said the appointment is in line with its goal to develop the Kvanefjeld multi-element deposit. Krebs is an experienced metallurgist with over ten years of project and technology development experience with complex hydrometallurgical circuits.

He was previously employed at Independent Metallurgical Operations Pty Ltd where he filled the position of Process Study Manager. During this time he worked on a number of metallurgical studies for nickel/cobalt and uranium projects for various clients. Previously he spent ten years with BHP Billiton in project and technology development roles.

Krebs will be responsible for metallurgical development for the Kvanefjeld project including: metallurgical test work, process development, process engineering, metallurgical mapping and engineering studies. The Company welcomes Mr Krebs to the team, as it works toward establishing the best possible process flow sheet for the Kvanefjeld project.
